Ph.D. Program

Overview

Overview

About VIT-AP School of Business

The VIT-AP University started the VIT-AP School of Business (VSB) with the vision of nurturing India's future leaders to effectively navigate the evolving landscape of challenges and opportunities in the competitive business world. Recognizing the significance of leadership in a globalized world, VSB programs are designed to enhance students' leadership skills, raise social and ecological awareness, and encourage systems thinking. The meticulously designed programs place a strong emphasize on the integration of technology into the curriculum, empowering students to make informed decisions in the face of technological advancements, social upheavals, and economic uncertainty. Students at VSB are not only encouraged, but also prepared to take on leadership roles that help shape creative business models, organizational structures, and governance frameworks in a variety of sectors such as business, government, education, and healthcare.

Ph. D Programme in VSB

The Ph.D. programme offered by the VIT-AP University under VIT-AP School of Business provides gateway to diverse and fulfilling career pathways in academic, research, industry and consulting projects.

Eligibility

Eligibility

Minimum Qualification For Admission

Eligibility

- The eligibility criteria include a minimum educational qualification, such as a master's degree, from a recognized Indian university in the area of Business Administration, CA, ICWA, MA Economics, or M.Com, with a minimum of 60% marks or a CGPA of 6.5 on a 10-point scale.

Procedure for Admission

Procedure for Admission

How to apply:

- Candidates interested in pursuing a Ph.D. at VIT-AP must submit their applications through the website during the specified application window. [Weblink: https://admissions.vit.ac.in

Selection Procedure

- Candidates need to meet stringent criteria, including holding a master's degree or equivalent qualification in a relevant discipline, demonstrating strong academic performance, possessing relevant work experience, and performing well in entrance exams like the VIT Research Entrance Examination (VITREE). Additionally, candidates must submit a research proposal and participate in an interview as part of the selection process.

The selection process for the Ph.D programme involves multiple stages including:

- Entrance Examination: VIT-AP conducts its own entrance examination twice a year, lasting for 2 hours. The exam comprises Multiple Choice Questions (MCQs), with one mark awarded for each correct answer and zero marks deducted for incorrect answers. The Ph.D. question paper consists of 100 MCQs, including Technical (70 questions), English communication skills (15 questions), and Statistics and probability (15 questions). The question paper is available only in English. The complete syllabus and information brochure are accessible on the university's website during the specified application window. Weblink: https://admissions.vit.ac.in

- Research Proposal: Candidates must submit a research proposal delineating their intended area of study and research objectives. This proposal aids in evaluating the candidate's research potential and alignment with the faculty's research interests.

- Personal Interview: Shortlisted candidates are invited for an interview, during which they discuss their research interests, academic background, and potential research proposals with a research expert committee.

Selection Procedure for International/NRI candidates

Selection Procedure for International/NRI candidates

Foreign nationals / NRI candidates can only register as full-time scholars through separate link:

https://admissions.vit.ac.in/irapplicationpg/

Entrance Examination:

- VIT-AP conducts its own entrance examination twice a year. The duration of the examination will be 2 hours. All questions will be Multiple Choice Questions, with one mark for right and '0' for the wrong answer. The question paper for Ph.D. will have 100 MCQs (Technical - 70 questions; English communication skills - 15; Statistics and probability - 15 questions). The question paper will be in English only. The complete syllabus and information brochure is available at university website during the specified application window. Weblink: https://admissions.vit.ac.in

Research Proposal:

- Candidates may be required to submit a research proposal outlining their intended area of study and research objectives. This proposal helps assess the candidate's research potential and fit with the faculty's research interests.

Personal Interview:

- Shortlisted candidates are invited for an interview, where they discuss their research interests, academic background, and potential research proposals with research expert committee.

Major Areas of Research

Major Areas of Research
